## W.W. DIMOND'S

It requires frequent changes of advertisements to get all of the many lines we carry to the notice of the public. You have no idea of the number of things we have for Christmas. We will tell you something new each week. A little about the usefulness of 5 O'clock Teas will interest you to-day. You must understand that these things are not merely for ornament, they may be put to good use even when the lady of the house is not dawdling over her tea cups. It is no longer a fad, but in a great measure, an article of necessity. One of them may be used even by the bachelor in making his morning coffee or his punch. Let us give you a recipe or two: Take a half glass of Scotch Whiskey, a glass of boiling water, a lump of sugar, some thin shavings of lemon peel; stir well and drink, if you like punch of this sort. If you have a five o'clock tea you will not have to run to the kitchen to get your hot water make it boil in the kettle which you have in your room. We can furnish you a little book containing thirty-three recipes for dishes in which the 5 O'clock Tea Kettle may be used in preparing. That is, we furnish the books to purchasers of the kettles which we sell at from \$2.50 up; marvelously low prices compared with what you have been paying. These teas are of the best quality—the difference in the price is the difference in the ornamentation and size.

To accommodate the public our Store will be kept open every night from now until after the holidays. We have to do this in order to accommodate the public.
